

## Email IMAP, POP3 & SMTP Settings

Microsoft Outlook & Outlook Express

### Google Gmail

Incoming Mail Server (POP3) – pop2.gmail.com

Outgoing Mail Server (SMTP): smtp.gmail.com SMTP server requires authentication (use the same settings as for the incoming mail server)

The Google Gmail SMTP Server requires an encrypted connection (SSL) on port 465.

### Hotmail

Incoming Mail Server (POP3) - pop3.live.com (logon using Secure Password Authentication - SPA, mail server port: 995)

Outgoing Mail Server (SMTP) - smtp.live.com (SSL enabled, port 25)

*If your email client does not support Hotmail as a Mail Service Provider or if it simply doesn't work with your mail server settings, you can use a 3rd party solution like **Hotmail Popper**, **IzyMail**, **POP Peeper** or **Email2Pop**. When using such tools, you should define your Hotmail account as a POP3 account and you will need to define your incoming mail server will as 'localhost' (or 127.0.0.1).*

### Yahoo Mail

Yahoo Incoming Mail Server (POP3) - pop.mail.yahoo.com (port 110)

Yahoo Outgoing Mail Server (SMTP) - smtp.mail.yahoo.com (port 25)

### POP Yahoo Mail Plus

Yahoo Plus Incoming Mail Server (POP3) - plus.pop.mail.yahoo.com (SSL enabled, port 995)

Yahoo Plus Outgoing Mail Server (SMTP) - plus.smtp.mail.yahoo.com (SSL enabled, port 465, use authentication)

### MSN

Incoming Mail Server (POP3) - pop3.email.msn.com (port 110, using Secure Password Authentication - SPA)

MSN Outgoing Mail Server - smtp.email.msn.com (select "My outgoing server requires authentication")

### Tiscali mailbox.

Tiscali Incoming Mail Server (POP3) - pop.tiscali.com (port 110)

Outgoing Mail Server - use your local ISP SMTP mail server

**Freeserve mailbox.**

Freeserve Incoming Mail Server (POP3) - pop.freeserve.com (port 110)

Outgoing Mail Server - use your local ISP SMTP mail server

**Lycos Mail**

Incoming Mail Server (POP3) - pop.mail.lycos.com (port 110)

Outgoing Mail Server - smtp.mail.lycos.com **or** use your local ISP SMTP mail server

**AOL** (mailbox supports IMAP protocol)

AOL Incoming Mail Server (IMAP) - imap.aol.com (port 143)

AOL Outgoing Mail Server - smtp.aol.com **or** use your local ISP SMTP mail server

**Mail.com**

Incoming Mail Server (POP3) - pop1.mail.com (port 110)

Outgoing Mail Server - use your local ISP SMTP mail server
